Center for Early Literacy Learning (CELL)

This research-to-practice technical assistance center was funded by OSEP to promote the adoption and sustained use of evidence-based early literacy learning practices by early childhood intervention practitioners, parents, and other caregivers of young children, birth to five years of age, with identified disabilities, developmental delays, and those at-risk for poor outcomes. [CELL products](#) include practice-based research syntheses and summaries, evidence-based practice guides, and tool kits.

Quote of the Day:

"The teachers have seen the child outcomes, they've seen the progress monitoring and the feedback they have received from people in the community, parents, everyone—and how supportive they are of what's happening. I am thrilled with the ELLC."
