The Emerging Language & Literacy Curriculum

GREAT NEWS!

The Emerging Language and Literacy Curriculum
is now available in the 2nd Edition!

There is a new publisher and we are thrilled to present the new edition. It has a few new children's books that go along with some of the units, the latest research and some updated units. It is a 2-volume set for easier handling. You will want to purchase it sometime this year to switch over and get the latest and greatest from the ELLC! Be sure to find the free ELLC resources on the Dynamic Resources website!

Quote of the Day:

"I like spending two weeks on a unit, which I really didn't think I would when we started this curriculum. It gives you time to cover the subject, and also really delve into the other phonological awareness lessons. I like how their center set-up made me change my mind about kids having free choice. Once I tweaked my schedule and the way the centers are offered (rotation of important, but less popular, centers in the morning), it makes sense for the kids to "direct their learning" in the afternoon."
