Mizzou’s HDFS Bachelor’s Degree in Child Life prepares students to support children’s development and coping within the contexts of pediatric illness, injury, disability, and grief in healthcare and community settings.

**PROMOTE OPTIMAL GROWTH THROUGH CHALLENGING EXPERIENCES**

Assess the psychosocial needs of children and families to minimize the negative developmental effects of stressful medical and life events.

**DEVELOP EFFECTIVE CHILD AND FAMILY INTERVENTIONS**

Utilize evidence-based practice in therapeutic play, psychological preparation, and coping skills instruction to reduce stress related to health care and loss.

**PROVIDE FAMILY-CENTERED CARE**

Collaborate with families using a strengths-based approach to empower patients, enhance coping, and support relationships.

**DIVERSE CAREER OPPORTUNITIES**

Graduates work with children, youth, and families in a variety of settings and roles:

- Hospital inpatient & outpatient care units
- Pediatric rehabilitation facilities
- Early developmental intervention agencies
- Specialized camps for children
- Bereavement centers and funeral homes
- Home health and hospice care
- Children’s crisis centers

**HANDS-ON PROGRAM THAT SUPPORTS YOUR GOALS**

**Bachelor of Science**

In the Child Life program, you will:

- Understand and apply child development principles
- Develop self-reflective practice and cultural humility
- Build clinical skills through volunteer, practicum, and internship experiences
- Complete HDFS and MU general education requirements and electives
- Receive internship application and interview support
- Be prepared for the national Child Life Professional Certification Exam
Kristin prepares and supports children undergoing medical procedures in the Pediatric Sedation Center at Golisano Children’s Hospital of SW Florida, and serves in the ACLP’s Professional Mentor Program.

“I have used my student volunteer and practicum experience as a guide for how to best support the volunteers and students I now supervise. I am able to... transfer that over into my teaching style to better support others in preparing for practice and the exam.”

KRISTIN BROWN, CCLS  |  FORT MEYERS, FL  
CHILD LIFE (BS) ’13

“I am constantly applying the skills and education that I obtained during my HDFS coursework ... I had a very supportive relationship with faculty who truly wanted to guide me in the right direction and were available for support at all times.”

JAMIE MARTIN, CCLS  |  CHICAGO, IL  
CHILD LIFE (BS) ’18

From minor illnesses, to major trauma and bereavement support, Jamie provides psychosocial care for children and families in the Emergency and Level 1 Trauma Center at Advocate Children’s Hospital.

CHILD LIFE IN HDFS - A SMART CHOICE

HANDS-ON EXPERIENCES
• Practicum at University of Missouri Children’s Hospital
• 600 hour off-campus clinical internship
• Mentorship with CCLS instructors
• Research opportunities with faculty specializing in children’s health, trauma, and play

• Federal financial aid eligible
• HES and HDFS scholarship opportunities available

ENGAGING COURSEWORK
• Courses in development across childhood/adolescence
• Child life theory and practice
• Children’s play
• Multicultural study of children and families

ABOUT HUMAN DEVELOPMENT & FAMILY SCIENCE

As human beings, we learn and develop throughout the lifespan, and we do so through interactions with family members, teachers, schools, peers, social media, and romantic partners. The recognition of this lifetime of growth embedded in social interactions is what defines Human Development and Family Science (HDFS) as a field, and what drives our faculty and students to better understand human development and family functioning.
